SYSTEM IMPROVEMENTS

PREMIUM RETRACTABLE TARP SYSTEM

WWW.TARPSTOP.COM

SYSTEM IMPROVEMENTS:

- **STRONGER BOWS**

The durability of the front and rear bows has been improved by strengthening them by 70%, which makes a stiffer bow and prevents welding cracks. Additionally, the pushup bows have been reinforced by 40%.

- **INCREASED CORROSION RESISTANCE IN WHEELS**

Double the corrosion resistance with added polymer cage and anti-seize technology.

- **STRONGER BULKHEAD**

Significantly reduce the chance of weld cracking with a 50% reduction in flex.

- **REINFORCED TROLLEY ASSEMBLY**

Reinforced trolley won't flare out under pressure.

- **INTEGRATED BUMPERS**

Eliminate the tarp pinch points.

- **TAIL BAR**

New corrosion resistant material for better fit over the life of the system.

- **NEW TAIL CRANK HOLDER**

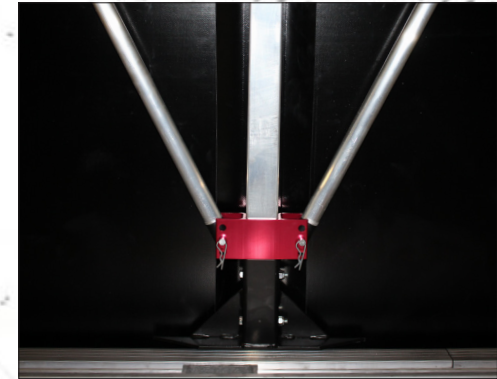

Switching from the driver to the passenger side is made easy with the 'Easy-Open' flip latch and universal design. The tail crank can also be secured with a padlock using the integrated lock tab.

- **NEW TELESCOPING TAIL CRANK**

Stronger stiffer tubing installed to reduce flex and wobble.

- **TAIL BAR FLIPPER LATCH**

All new "Never Bind" system allows for quick and effortless movement of the tailbar latch.

- CUSTOM BUILDS
- EMERGENCY REPAIRS
- CUSTOM FABRICATION
- LIGHT BAR INSTALLATION
- TRACK/TROLLEY REPLACEMENT
- BOW REPLACEMENT
- ROLLING KIT REPLACEMENT PARTS

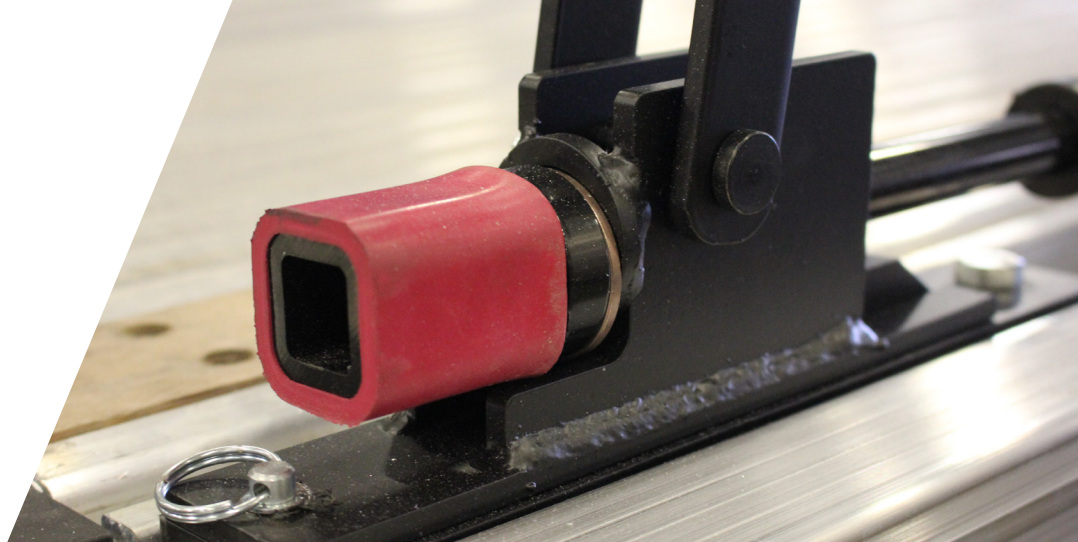

➤ GROUND LEVEL REAR TENSIONING

The Fastrak II comes equipped with a standard ground-level rear tensioning system, which helps to reduce accidents that result in lost work. Additionally, it helps to keep older drivers working for longer periods of time, reducing fatigue and improving their overall job satisfaction while also decreasing worker compensation claims. Thanks to its A-frame cranking and tightening feature, coupled with a reliable front-latching system, the Fastrak II is one of the safest tarp systems currently available on the market.

➤ OUR PATENTED TRACK AND TROLLEY

Our track and trolley system is way ahead of the competition. It boasts a deluxe splash guard that can protect your wheels from dirt, sand, and other debris that you might encounter on the road. The product comes with a powder-coated finish, has the largest bearings available on the market, and is made of lightweight, high-strength steel. All wheels on this trolley are covered under a full, comprehensive two-year warranty.

➤ SMOOTH AND EASY ROLLING TARP SYSTEM

The Fastrak II is a rolling tarp system that boasts a patented corner design and double-trussed main bows. It is known for its smooth operation and ease of use, making it one of the best options available in the market. The system also comes equipped with a full-length skylight that provides excellent visibility inside the trailer, even at night. The Fastrak II has been designed as a modular system, which means it can be worked on in sections, saving you money in the long run.

WE DON'T SAY NO, WE GET IT RIGHT

With a 'Running Through Walls' mentality, our customer service is what makes us one of the best in the industry. We take care of all our customer's as though they are our only customer, so they can focus on the road ahead. We always try to provide solutions and services that no one else will.
